

Fidel Chaves *Buenos Aires, Argentina*

[LinkedIn](#) | [Substack](#) | fidelchaves96@gmail.com | [Teléfono](#)

I am a communication specialist at Stämm, a biotechnology startup. I hold a degree and teaching certification in Biological Sciences from the Universidad de Buenos Aires, and I am currently pursuing a degree in Editorial Studies (UBA). I am experienced in research, writing, and precise editing across a wide range of formats, including articles, fiction, and scientific papers. My scientific background gives me a methodical approach to writing, and my natural curiosity allows me to cover diverse topics. I grew up trilingual in Spanish, French, and English. I work well in teams, plan ahead, and maintain an organized routine. Teaching, learning, public speaking, and communication come naturally to me.

Antecedentes profesionales

Scientific Communication Specialist, Stämm (*October 2023 – Present*) Full development of a content strategy for a biotechnology startup. Writing and editing of whitepapers, technical articles, and audiovisual scripts (YouTube and Reels), ensuring scientific accuracy and brand consistency. Trilingual community management and content creation, achieving consistent growth in engagement. At least one post per week per platform for over two years (LinkedIn, X, and Instagram); annual thought leadership deep-dive articles for Medium and the LinkedIn Newsletter. UX writing and copywriting for a complete website redesign from scratch. On-camera presence and Reel production using my own image to represent the company.

Active platforms: [Instagram](#), [Linkedin](#), [X](#), [Medium](#), [YouTube](#).

Natural Sciences Teacher, ORT Technical School & San Agustín School (*March 2022 – October 2023*) Secondary-level teaching at Colegio San Agustín. Courses for 1st, 2nd, and 3rd year students, including Science Olympiad preparation. Lesson planning, course delivery, and pedagogical support.

UX, Content & Copywriter, Awkbit (*April 2021 – March 2022*) UX, content, and copywriting for a software factory. Published one to three articles per week using their Drupal CMS, along with general content (use cases, portfolios, social media) for their clients. Rewrote the company website and produced social media content.

Science Communication (*2015 – 2019*) Scientific presentations at FCEN-UBA and the Academy of Medicine. Participated in various science outreach events intermittently from 2015 to 2019.

Internships
